

## Proposal by Yochanan Afek

I would like to add a proposal to the agenda of Batumi congress on behalf of the Israeli society. We propose a new composing title. Since the gap between IM and GM is huge and often cannot be closed in one lifetime by most of the good composers, we propose a new title which will be awarded for scoring 50 Album points. Our proposed name for the new title is: **International Chess Art Master** or just **International Art Master**.
