

2nd Milan Velimirović Memorial 2019

The Serbian Chess Problem Society is glad to announce the 2nd Milan Velimirović Memorial 2019 solving tournament. This tournament is part of the Serbian Solving League competition. This year decision has been made to open this tournament to all participants worldwide. However there is the requirement that local controllers use the Solving Tournament Manager tool that can be downloaded and installed from this page: <https://www.wfcc.ch/software/>. At the moment this tool supports multiple languages: English, Russian, German, Greek and Serbian. If you have any questions/issues installing this tool please contact Misha Mladenovic (miodrag1964@gmail.com).

Locations in Serbia: Belgrade, Novi Sad & Niš

Time: Saturday, 5th October 2019, local time: 11:00 (CET).

Internationally, we suggests that the tourney will be held at CET 11:00.

There will be one round (150 minutes) with 15 twomovers to solve.

Main controller will be **Borislav Gadjanski**. All countries who wish to participate should contact the main controller by e-mail: borislav.gadjanski@gmail.com.

This is the time schedule for this event:

- Friday, 27th September 2019 - Final date for registration
- Wednesday, 2nd October 2019 - The local controllers will receive all necessary documents by e-mail no later than this date.
- Local controllers should send results from the program by the end of the day on Saturday, 5th October. All other results will be disregarded
- Sunday, 6th October, 2019 – Cumulative results will be published on <http://www.matplus.net>. Since this is the non-rated tournament and there are only twomovers to solve (very easy for local controllers to check solutions) the results will be final and there will be no preliminary results published. The local controllers are obligated to publish preliminary results at their location and to resolve any solver claims before they send results to the main controller.

Please note that only the tourneys held in Serbia will count for the Serbian Solving League.

Top places are guaranteed diplomas, which will be given in the congress in Rhodes next year.

Thank you!
