

Dear chessfriends,

We will hold The International Chess Solving Championship of Slovakia in Bratislava on September 12th and 13th. The Championship system is like WCSC – (six rounds in two days). We suppose not very well attended competition. Therefore we plan parallel tournament for those, who cannot arrive to Bratislava. We would like to try first time to hold “lockdown type” tournament in six rounds.

To be sure to have good feedback I choose the solvers, who participated as minimum on one IN SITU tournament. The rules will be the same as in other IN SITU tournaments, no rating calculations, no prizes, trust in fair-play of every solver. The only difference is that you have to send yours solutions six times.

The schedule requires to register till Friday **September 11th** 2 00 p.m. CET (Central European Time). In the evening of the same day you will receive the sheets for solutions. The single rounds will be in motion simultaneously with rounds in the real tournament in Bratislava.
