Tournament

At exactly 10.00 CEST an e-mail with the problems will be sent to every participant. The solvers will be solving at home till 12.00. Every participant will receive an e-mail indicating the end of solving. The solvers will have 5 minutes to submit their solutions by e-mail to the address mentioned above. A solver can of course forward his solutions before the end of his session. You can use photo, scan, doc file, etc.

After tournament

After 15 minutes the solvers will receive the solutions from the director. The tournament director will mark immediately the solution sheets and publish the preliminary results as soon as possible (probably early in the evening). The solver can easily check himself how many points he has, because they still have their own solving sheet and the document with the solutions. If he is not sure about something, he can always ask the director for clarification.

Fair-play

The director trusts all players that they will not use any helping devices (computer, books...) while solving. This cannot and will not be checked by the director. The director believes in honesty of all the participants and that they will show respect for the other competitors by adhere strictly to this rule.

Finally

All unforeseen events (undelivered emails, etc.) will be handled by the tournament director with common sense.

All e-mails must be sent to the tournament director:
