A complex that is hard to implement: cyclic interchange of first and third moves of white pieces to the same square in combination with cyclic Zilahi. All the solutions involve the blocking of black king's flights which are occupied by white pieces in the diagram position. Absence of black pawns and model mates are signs of the author's grandmaster level.
 (Judge Mykola Kolesnik)

Сложный для реализации замысел – циклическое чередование первых и третьих ходов белых фигур на одно поле в сочетании с циклическим Зилахи. Во всех решениях используются блокирования полей у черного короля, занятых в исходной позиции белыми фигурами. Отсутствие белых пешек и правильные маты – показатель гроссмейстерского класса автора.
 (Судья Николай Колесник)

For the first time ever in a helpmate with a single line of play, four different pieces make captureless moves to four different corners and then leave the corner squares on the next move, also without capturing.

Впервые в однофазной задаче четыре разные фигуры ходят без взятий в четыре разных угла, а затем следующим ходом "тихо" их покидают.

Task: Five solutions with antidual choice of the bQ route to the self-blocking square. Ideal mates.

Judge Marcos Roland: “Unbelievable achievement, featuring five ideal mates, made possible by an incredible set of antidual choices among several possible first moves by the black Queen, in an open board.”

h#7,5 C+ 2+6

“The solution with short steps of the wB is spectacular, witty, strange, and peppered with several subtleties. It is hard to believe, but the wB wanders from b1 first via a2 to b3, the same way back, then via c2 to d3, from there in one move back to b1 (Bristol for the bB), before he moves to a2 for the third time to set mate. Here the interplay of the white and black play is celebrated in perfection.”
 (Judge Franz Pachl)

 5-men miniature

h#5* C+ 3+2

“Видимо первая двухвариантных пятиходовая задача-малышка с белыми ладьей и слоном, причем в форме блока. В иллюзорной игре представлена индийская тема в исполнении слона и короля, а в действительном ладьи и слона. При этом имеется маятник слона или ладьи. Находка!”
 (Judge Boris Shorokhov).

“To achieve two completely different, yet completely harmonious, solutions (noting the complementary white batteries!) with just 5 men on the board seems to me to be almost miraculous.” (“Romancing the helpmate with Grandmaster Christopher Jones” by Satanick Mukhuty, <https://chessbase.in/news/Romancing-the-helpmate-with-Grandmaster-Christopher-Jones>)
